Tipp City Fire/EMS Station Renovations

There will be periods where telephone and email will be intermittently down during the week of March 23 and March 29. This will be due to relocating utilities in preparation for the Fire/EMS Station Renovation Project. As always if an emergency happens, please contact 911 or for non-emergency contact Miami County Dispatch at 937-440-3965.

Additionally, beginning April 1 through December 1, 2013 there will be no public parking at the Fire/EMS station. Temporary offices (trailer) for EMS shall be behind the station by the alley (no parking available). CPR classes will not be held at the station until further notice.

Thank you for your patience and understanding during this renovation project.
